5. Courtesy ledge around deep end of the pool.
6. **Swim.** Large open swim area for water activities.
7. Auto-cover ready.
8. Non-skid surface on steps, benches, tanning ledge and floor.
Nine Layers Of Strength

The Composite Sandwich of Awesomeness

Let’s think of a fiberglass pool shell as a huge sandwich. A sandwich is a composite, which basically means it’s made up of different materials. Each material is applied in layers with the goal of giving the entire sandwich maximum flavor.

Such is the case with a fiberglass pool. It’s a composite. It’s manufactured in multiple layers with each layer serving to maximize the strength and durability of the entire structure. In other words, our fiberglass pool is thought of as a sandwich of strength. Hence, we affectionately refer to our unique manufacturing methodology as our Composite Sandwich of Awesomeness.

1. Gel coat.
2. Vinyl ester barrier coat.
3. First application of chopped fiberglass.
4. Second application of chopped fiberglass.
5. Hand-laid woven roving fiberglass.
6. Third application of chopped fiberglass.
7. Honeycomb core.
8. Fourth application of chopped fiberglass.

*Handrail, rope with floats, and safety equipment may have been removed for photography purposes. Thursday Pools requires that all pool installations install a handrail and comply with all federal, state and local building codes.
